Parents/Tutors:

The majority of students who participate in the WordMasters Challenge do so as members of a team sponsored and/or supervised through their school. We welcome students who are homeschooled or do not attend a school that offers WordMasters to take part in our program. Please read the following statements, complete the bottom portion and return this form to WordMasters in order to activate access to materials through your Dashboard.

- I affirm that the students listed below do not attend a school that participates in the WordMasters Challenge.
- I understand that I am enrolling the students below in a national competition, and will not share the contest word lists, tests or answer keys with any parent or student not listed below.
- I have reviewed the Team Leader Guide (posted under the RESOURCES tab at the WordMasters website) and will abide by the same rules and guidelines applied to Team Leaders of school teams.
