

2017 AHERA TRIENNIAL RE-INSPECTION REPORT

Federal law requires that school corporations conduct a re-inspection for friable and non-friable asbestos-containing materials every three years. The triennial re-inspection is conducted by the State of Indiana accredited asbestos inspector. The field inspection was performed on June 6th, 2017 by Micro Air, Inc. of Indianapolis, Indiana. All of the requirements for conducting AHERA triennial re-inspections as spelled out under 40 CFR 763.85, Paragraph B, have been met as part of this re-inspection.

Copies of these reports are maintained at the Porter Service Center, 9150 Rawles Avenue.
