## Labor Day, Monday, Sept. 5th-NO SCHOOL

### Pleasant Run Families,

Recently your child took the NWEA test called Measures of Academic Progress (MAP). Students were given the NWEA MAP tests to determine your child's instructional level and to measure academic growth throughout the school year, and from year to year in the areas of Language Arts, Reading and Math.

MAP tests are unique in that they adapt to be appropriate for your child's level of learning. As a result, each student has the same opportunity to succeed and maintain a positive attitude toward testing. And with NWEA MAP tests, we can administer shorter tests and use less class time while still receiving detailed, accurate information about your child's growth. This school year, students in grades kindergarten through tenth take the tests in August, December and May. Following each testing period, you will receive a report showing your child's growth. This report will be coming home today.

We are truly excited to begin a new era that focuses on every child's individual growth and achievement. Partnering to help all kids learn, parents and teachers can have a profound positive effect on the lives of our children.

For more information on resources for parents, download the Parent Tool kit at <https://www.nwea.org/resources/parent-toolkit/>

Please enjoy the long weekend and we will see everyone back here on Tuesday.

# Flu Prevention Steps

1. **Cover your nose and mouth with a tissue when you cough or sneeze.** Throw the tissue in the trash after you use it. If you don't have a tissue, cough into your elbow.
2. **Wash your hands often with soap and water, especially after you cough or sneeze.** Alcohol-based hand sanitizers are also effective.
3. **Avoid touching your eyes, nose or mouth.** Germs can spread that way.
4. **Stay home if you get sick.** The CDC recommends that you stay home from work or school, and limit contact with others to keep from infecting them.
5. **Use disinfectants on surfaces, as directed, to help prevent the spread of influenza virus.** Germs can spread when a person touches an infected surface and then touches their
