Excellence Everyday, That's the Panther Way!

President's Day - February 20th NO SCHOOL

Pleasant Run Families -

Tomorrow night is one of my favorite events of the year. Our students get dressed up and come to dance with their father, Uncle or friend. I hope all the daughters will be here with the guest of their choice to enjoy a special treat, dancing and loads of fun with their friends and their Pleasant Run Family! If you haven't purchased a ticket you can purchase yours at the door. The DJ will be all cued up and the decorations will be out and around. We will anxiously be awaiting your arrival and an evening of dancing the night away. So come on out and get your groove on.

Best of luck to our Pantherbots as they compete in another tournament on Saturday. May our robot be the swiftest and the most proficient. We also wish our Math Bowl team the best of luck as they compete in the 2017 Math Bowl this coming Thursday at 5:00 PM.

Finally I hope you can join us for our African American evening of celebration this coming Thursday beginning at 6:00 PM, right here at Pleasant Run. Our students have been working extremely hard and they are extremely excited for the evening.

Have a great weekend!

Mr. Koomler

Parents: Please remember that your student needs to be fever free for 24 hours without medicine. If we send them home today with a fever they CAN NOT return to school tomorrow. Also, if your child is vomiting during the night or in the morning please DO NOT send them to school because we will have to call you to pick them up.

All students are reminded to wear or bring proper footwear to gym class. Snow boots are not suitable for activities and lessons in the gym. They pose safety issues and do not allow students to participate at their best.

Flu Prevention Steps

1. **Cover your nose and mouth with a tissue when you cough or sneeze.** Throw the tissue in the trash after you use it. If you don't have a tissue, cough into your elbow.
2. **Wash your hands often with soap and water, especially after you cough or sneeze.** Alcohol-based hand sanitizers are also effective.
3. **Avoid touching your eyes, nose or mouth.** Germs can spread that way.
4. **Stay home if you get sick.** The CDC recommends that you stay home from work or school, and limit contact with others to keep from infecting them.
5. **Use disinfectants on surfaces, as directed, to help prevent the spread of influenza virus.** Germs can spread when a person touches an infected surface and then touches their own eyes, mouth, or nose.
