## Automotive Collision Repair Technology I and II

*Do you like to be told you are amazing? That is what you will hear when you can take a wrecked vehicle and repair it to look like new. Automotive Collision Repair Technology I-II will give you the basic skills you will need. Dent repair, parts replacement, painting and final detailing are the main focus of this class. Hands-on and classroom activities will enhance your skills so you can apply the perfect finish. Are you the artistic type? Custom painting and airbrushing will also be covered.*
