BULLETIN

Bulletin #1201 – June 15, 2012

Speed title transactions will be unavailable Saturday, June 30th

The Bureau of Motor Vehicles has asked ADAI to notify its members of the following:

Speed title transactions will be unavailable Saturday, June 30th
due to the NMVTIS Service Unavailability – Saturday, June 30th

NMVTIS central site and NMVTIS sub-applications (State Web Inquiry and State Batch Inquiry) will be unavailable to all jurisdictions starting on Friday, June 29th at 8pm EDT until Monday July 2nd at 2am EDT. During this period, the pseudo batch transactions and the batch files from jurisdictions will not be processed. They will be scheduled for processing after the system is made available to the states on Monday 7/2.

The reason for the extended outage is to ensure a smooth rollout of California AB 1215. For those unfamiliar with AB 1215, starting on July 1, 2012, California used car and truck dealers are required to query NMVTIS before selling any used vehicle. If the NMVTIS report shows a previous salvage or other state title brand or reported event, such as Insurance Total Loss, then this information must be disclosed to consumers in advance of a sale. A very high volume of traffic to NMVTIS is anticipated during this period as used car and truck dealerships query NMVTIS for all vehicles on their lots in order to comply with this California law.
