## **BULLETIN #16**

### **CRITICAL CARDBOARD PLATE SHORTAGE !**

The Bureau of Motor Vehicles' Dealer Division has notified ADAI Headquarters of a critical shortage in dealer interim (cardboard) license plates.

**You may order no more than 100 plates by mail or in person.**

(For the next few weeks, current and future orders will be limited to no more than 100 plates.)

#### NOTE:

1. A dealer is *NOT* required by law to issue a cardboard plate.
2. If your customer has a valid metal plate to transfer to his vehicle, it is perfectly legal to place that plate on the vehicle for 31 days. This eliminates the need for a cardboard plate.
