DEALER “M” PLATE RECALL

***** Action Required *****

A recently discovered policy change has taken place at the Indiana Secretary of State office regarding the renewal of Dealer-New “M” plates.

Effective this 2011 renewal cycle, the Secretary of State is requiring dealers to surrender their Dealer-New “M” plates in exchange for the consecutive A-series plates. It has been suggested that dealers return half of their total M-plate count first and when those plates have been replaced, send in the other half. If you split up the return, you will never be completely without metal plates on hand to conduct business.

Return your “M” plates via FedEx or UPS to:

Indiana Secretary of State
Dealer Services Division
302 West Washington Street, Rm. E-018
Indianapolis, IN 46204

ADAI will continue to communicate with the Secretary of State Dealer Services Division and Executive offices to gain a better understanding why the sudden change was implemented and what options or processes are required in the future.

As more information becomes available, we will continue to keep you informed.
