

Quality

Since 1950 Lafayette Interior Fashions has provided quality custom window fashions to homes all across America. The tradition continues with the Wyndham Shutter Collection with the quality you have come to expect.

Manufactured from high grade lead free composites your Wyndham Shutters will never peel or delaminate like wood composite shutters. UV inhibitors in our finish helps resist color fading and yellowing even in the hottest windows and our water based paints are environmentally safe in your home. To ensure straightness and rigidity in larger shutters, the components are co-extruded with aluminum reinforcement for extra strength.

Custom Shutters

Item No. 18-6904-09

Selection

Wyndham shutter panels can be manufactured in full length, café, double hung lengths and even bypass operation to fit any décor and nearly any size window no matter how big or small. Three popular paint colors and seven frame styles assure we have an application to work with your windows. Choose from 2 ½", 3 ½" and 4 ½" louver sizes with the standard single tilt bar on the front center or the offset option. Our hidden tilt system eliminates the need for a front tilt and offers a clean unobstructed view through the louvers.

Service

Quality is our promise and backed by a Limited Lifetime Performance Warranty and 10 year Finish Warranty.

Value

Shutters have always been one of the most cherished treatments in window coverings and are now available to fit any budget. Wyndham shutters will add years of enjoyment and long-term value to your home with high performance at a reasonable price.
